Executive Director Job Description.docx

Hello Judith,

As promised here is the job description they are planning to post.
I will personally accept the resume coming from your recommendation. Current Executive Director is retiring on Feb 29th.

Separately have you heard of the technology that Lockheed is using from Concord Blue Energy, Inc. ?
http://concordblueenergy.com/press-releases/lockheed-martin-contract-signing.aspx

Concord Blue is a waste solutions innovator that transforms nearly any form of waste into a variety of clean, renewable fuels and energy. Unlike other available waste-to-energy processes, Concord Blue's unique process employs a patented technology called steam thermolysis to convert waste material using heat transfer instead of incineration – efficiently producing the highest quality syngas without combustion. Concord Blue operates globally, with offices in the United States, Germany, India and Dubai.

Thank you Judith for your continued support with providing us resources etc.
Thank you for the tweet.

Cheers
Harith
